Kellicott (1913): 1 Ontogeny | 2 The cell and cell division | 3 The germ cells and their formation | 4 Maturation | 5 Fertilization | 6 Cleavage | 7 The germ cells and the processes of differentiation, heredity, and sex determination | 8 The blastula, gastrula, and germ layers.

A textbook of general embryology (1913) 8 - Embryology

There are several textbook resources referred to in UNSW Embryology and there are some additional excellent textbooks listed below that cover embryology or more broadly developmental biology. I do not intend to endorse any specific textbook, this page simply lists, and provides links too, those I have seen and/or used.

textbook of embryology - woumman.fs-newbeginnings.org.uk

Medical Embryology is the study of the human development. And for those who do not know, Langman's Medical Embryology is the most famous book in the world when it comes to the subject of medical embryology. The study of human development is really complex and exhausting given the amount of detail the medical students have to absorb.
