This course includes authentic material taken from Dorling Kindersley's acclaimed Eyewitness Travel Guides which explore some of the world's top tourist destinations.

"Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage, and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a product, nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways"--

This timely Research Agenda explores and proposes critical lines of research to support understanding of the conditions under which urban tourism contributes to the development of urban systems, and what can be done to create and conserve these conditions. Chapters highlight conceptual discussions, concrete case studies and policy reviews to address the issues surrounding the economic, environmental and social impacts of tourism on cities.

In recent years there has been a considerable interest in the cultural aspects of tourism such as the impacts of culture on tourism planning, development, management, and marketing. However, the focus has been on material forms of culture such as arts, music, or crafts. The impacts of national culture on tourist behavior and travel decision-making have not been paid much attention. Only in the last two years have cross-cultural issues begun to generate significant interest among academics. An examination of cultural characteristics and differences is extremely important to the tourism industry because today ' s tourism environment is becoming increasingly international. Information on the nature of the cultural differences between international tourists and locals is not readily available in tourism literature. The concept of culture is very complex and includes such abstract concepts as satisfaction, attitude and loyalty. International Tourism brings these concepts to the undergraduate student in tourism, as well as students in the related fields of marketing, management, international business, and cross-cultural communication. Designed as a textbook, it isorganized and presented in an integrated and relevant way for the benefit of a worldwide audience.

Cultural heritage attractions are, by their very nature, unique and fragile. It is therefore important that tourism authorities study how best to develop such sites, whilst at the same time preserving them for the long-term. The aim of this conference was to provide a forum for countries from all over the world to present case studies on successful policies, guidelines and strategies that would help the Asia-Pacific region take advantage of its cultural heritage in developing its tourism industry.

The series builds learner confidence in the professional skills needed for the tourist industry whilst developing their language awareness. Students practise these skills in realistic case studies that reflect topical tourism issues.
