Manufacturing Interview Questions.

"Manufacturing covers a broad spectrum of jobs, each of which differs in its requirements. The questions you are asked in a manufacturing interview will depend on the tasks you are expected to perform. As most manufacturing jobs revolve around creating components and assembling components into products, you can expect to be interviewed about your ability to perform repetitive assembly line-style tasks with precision and accuracy.

First published in 1998, this volume was designed to lead to an operational model of Advanced Manufacturing Technology (AMT) decision making which incorporated the mathematics of fuzzy set theory. The rapid advancement of robotics, automated technologies and software such as CAD and CAM have made such studies paramount. Here, analyses of a questionnaire survey and field study of major UK manufacturing companies together provide a simulating portrayal of AMT investment decision making and have been expanded upon with a model
