The second book in a much loved Italian travel memoir trilogy which also includes the delightful *When in Rome* and *Girl by Sea*. After three years living and working in Italy, Australian journalist Penelope Green needs a reason to stick around - true love or gainful employment. When a job comes up in Naples - crime capital of Italy, home of pizza and the Camorra, and crouched at the foot of a volcano - Penny launches herself into the unknown. With her innate curiosity and eye for detail, Penny prises Naples open to show us the real city, in all its splendour... and all its depravity. She uncovers a chaotic metropolis when crime and poverty blur with abundant natural beauty, and where the shadow of Mount Vesuvius is a daily reminder that life must be lived for the moment. And when Penny meets a bass player in a local band, she thinks she might have found that other reason to stick around. 'This is a bewitching, true tale of a tantalising city. Magnifico!' - Marie Claire 'frank, funny and honest' - Notebook 'Her down to earth tone and genuine curiosity make for an interesting and insightful read' - Sun-Herald Author Biography Penelope Green was born in Sydney and worked as a print journalist around Australia for a decade before moving to Rome in 2002. The conclusion to Penelope Green's bestselling trilogy about her life in Italy that includes *When in Rome* and *See Naples and Die* From her rooftop terrace, Penelope looks out across the sparkling waters of the Bay of Naples, and into a garden of lemon trees and magnolias. Has her Italian dream come true? Imagine catching a ferry home and stepping onto a waterfront lined with multicoloured buildings, busy with fishing boats and couples strolling to their favourite café. For Penny and her Italian love Alfonso, the idyllic island of Procida can offer the life they are looking for. But first Penny has to find a way into its small community. One thing she has in common with the locals is a love of food, so she sets herself a goal - to master the Procidan

cuisine and become more than just a visitor. Across kitchen tables, in bustling cafés, and over long lunches under vine-covered pergolas, Penny learns the art of Italian cooking, builds friendships, and discovers the rhythms and secrets of island life. A charming concoction of love, food and life ? with recipes!' - The Australian Women's Weekly 'With her observant eye for detail, young Sydney-born journalist Penelope Green's account of her time living on the beautiful Italian island of Procida with her partner, Alfonso, is an endearing insight into a small community where life, love and food reign supreme' - Sunday Telegraph 'interspersed with mouthwatering recipes and Procida is explored from a historical, cultural, architectural, social and heart-on-the-sleeve personal perspective. The first book in a much loved Italian travel memoir trilogy which also includes the delightful *See Naples and Die* and *Girl by Sea*. Winner of the Grollo Ruzzene Foundation Prize in the Victorian Premier's Literary Awards. We've all dreamed of a new exotic life in a European city, but who actually goes? When in Rome shows what can happen when you are courageous - and perhaps crazy - enough to chase this dream. With her thirtieth birthday on the horizon and her safe and comfortable life in Sydney outside her front door, Penelope Green decided it was now or never. Undaunted by the fact she spoke absolutely no Italian, had no job, no friends and nowhere to live, and armed only with an Italian English dictionary, irresistible optimism and a fair dash of bravery, she was determined to carve out her own slice of *la dolce vita*. Both frank and funny, Penny tells how she plunged into the deep end of Roman life from her first giddy Vespa ride to daily struggles with the language and culture (not to mention a few lecherous locals), to seeing in her birthday with a kiss from her lover under the floodlit Colosseum. A Best Book of 2020: Open Letters Review "Andrews's writing is

transportingly voluptuous, conjuring tastes and smells and sounds like her literary godmother, Edna O'Brien . . . What makes her novel sing is its universal themes: how a young woman tries to make sense of her world, and how she grows up." -Penelope Green, The New York Times Book Review This "luminous" (The Observer) feminist coming-of-age novel captures in sensuous, blistering prose the richness and imperfection of the bond between a daughter and her mother It begins with our bodies . . . Safe together in the violet dark and yet already there are spaces beginning to open between us. From that first immaculate, fluid connection, through the ups and downs of a working-class childhood in northern England, the one constant in Lucy's life has been her mother: comforting and mysterious, ferociously loving, tirelessly devoted, as much a part of Lucy as her own skin. Her mother's lessons in womanhood shape Lucy's appreciation for desire, her sense of duty as a caretaker, her hunger for a better, perhaps reckless life. At university in glamorous London, Lucy's background sets her apart. And then she is finished, graduated, adrift. She escapes to a tiny house in Donegal left empty by her grandfather, a place where her mother once found happiness. There she will take a lover, live inside art and the past, and track back through her memories and her mother's stories to make sense of her place in the world. In "a stunning new voice in British literary fiction" (The

Independent) that lays bare our raw, dark selves, Jessica Andrews's debut honors the richness and imperfection of the bond between a daughter and her mother. Intricately woven in lyrical vignettes, *Saltwater* is a novel of becoming-- a woman, an artist-- and of finding a way forward by looking back.

Welcome to Nvengaria, a land where magic happens, shape-shifters are real, and fairy tales come true. England 1819 Wallflower Penelope Trask believes nothing will ever happen in her village of Little Marching, Oxfordshire. Handsome princes only sweep in and carry off innocent maidens in the fairy tales she collects, never in real life. Prince Damien of Nvengaria is tired of living inside a fairy tale. His entire life has been ruled by prophecy, magic, and avoiding being assassinated by his mad father and the head of the Council of Dukes. When his father dies, he inherits a kingdom divided, his opposition led by Grand Duke Alexander, who will do anything to keep the monster's son from ruling Nvengaria. To make good his claim to the throne, Damien must fulfill a prophecy that reunites the lines of the original two princes of Nvengaria, best friends who'd carved a kingdom out of wild lands near the Transylvanian mountains. Damien's task--to bring back the Princess of Nvengaria, her line lost centuries ago. The price of disappointing the people, Alexander promises, will be

Damien's execution. Damien tracks down the long-lost princess to the village of Little Marching in England, where nothing remotely interesting ever happens. He will have to convince the lovely Penelope that he is no charlatan, and that Damien's life and his kingdom depends on her facing danger with him. Along the way, the prophecy says, they will fall in love. And the prophecy is never wrong ... Note that the Nvengaria series is a paranormal historical, the books loosely based on well-known fairy tales: Penelope and Prince Charming—Cinderella The Mad, Bad Duke—Beauty and the Beast Highlander Ever After—Snow White and the Seven ... The rugged character and indomitable spirit of the early pioneers of Stephen F. Austins Texas colony had their roots in a turbulent, distant past. From the early 1600s, their courageous ancestors had pushed westward, leaving the European shores to carve out a new nation from the wilderness. They fled religious and political oppression in search of a better life in which freedom was of supreme importance.

Many came with tales of their former struggles in Londonderry, Ireland during the great siege, of terrible massacres and clan rivalries in the times of William Wallace and Robert the Bruce, King of Scotland. They vividly remembered the tribulations of Martin Luther and the deadly religious split with the Catholic Church. More recently, memories of their parents participation in the American Revolution, of dramatic, true life scenes such as depicted in the movie The Patriot filled their minds, their fathers having ridden along side of the wily Swamp Fox, Francis Marion. These pioneers associated themselves with men like Travis, Crockett, Houston and Andrew Jackson. Many of these early trailblazers were Scots-Irish and German immigrants. They were on a westward trek to grasp a special prize, to seal Americas Manifest Destiny. And that prize they sought was Texas. From Jamestown to Texas is the story of these intrepid pioneers and their ancestors who cleared and farmed the land, who fought the Indians, battled the elements, and carved out this wonderful country that we have today.
