Can you be re-lit by poetry? This little book offers everyone one of the oldest of all remedies for stress: the reading of poetry.

Equips high school students to analyze classic literary genres, discern author's worldviews, and apply biblical standards. Helps you build vocabulary by using new words in every speech and essay. Gain in-depth instruction in the subjects of grammar, punctuation, and spelling. Learn to convey important ideas in both writing and speech in this easy-to-follow, daily format. This is a dialectic and logic level course that prepares students for later academic pursuits. This 35-week course presents diverse writings, from Shakespeare to Jack London, Lewis Carrol to Longfellow, and Sir Walter Scott to C.S. Lewis. Students are taught to analyze key elements of literature such as allegory narrative, satire, plot, setting, and more. While Dr. Stobaugh scrutinizes all literature from a Christian worldview, his instruction also helps students develop their skills in public speaking, writing, and discernment to empower them to be more effective Christian apologists. In the steps of Augustine, Milton, and Lewis, students are invited to analyze the classics with a keen, discerning eye, and to identify positive and negative components of literary worldviews emergent among the classics.

“ An instant classic that belongs on the bookshelf of every serious poet and literature student ” (The Washington Post). A major addition to the literature of poetry, Edward Hirsch ’ s sparkling new work is a compilation of forms, devices, groups, movements, isms, aesthetics, rhetorical terms, and folklore—an “ absorbing ” book all readers, writers, teachers, and students of poetry will return to over and over (The New Yorker). Hirsch has delved deeply into the poetic traditions of the world, returning with an inclusive, international compendium. Moving gracefully from the bards of ancient Greece to the revolutionaries of Latin America, from small formal elements to large mysteries, he provides thoughtful definitions for the most

This 'prosodical' syntax is intended to replace the famous syntactic laws of Hans Kuhn through its greater accuracy and wider range of application.

Speech/language and music are the two main forms of systematic human communication using acoustic signals. This implies that there are interesting and thought-provoking parallels between these areas, which may contribute towards our understanding of the processing and perception of auditory signals. This book reviews the relevant research fields, and includes speech and music examples on CD to help the reader to appreciate the sound characteristics discussed. Areas covered are: descriptions of music and language; speech and music performance; voice and instruments; cognition and perception; neurophysiology; combining speech and music.
