Dimensions: 229 x 159 x 37 mm. Hegel's "Phenomenology of Spirit" is considered by many to be the most difficult book in the philosophical canon. While some authors have published compelling essays on various aspects of the book, few authors have successfully tackled the whole. That is precisely what Stewart does, however, by interpreting Hegel's

between the respective analyses. Many of Hegel's main themes- universal-particular, mediacy-immediacy-are traced through the text, demonstrating Hegel's formal continuity. By examining at the microlevel the particulars of the dialectical movement, and by analyzing at the macrolevel the role of the argument in question in the context of the work as a whole, Stewart provides a detailed analysis of the Phenomenology and a significant scholarly demonstration of Hegel's own conception of the Phenomenology as a part of a systematic philosophy.

wide criticism both from Western and Eastern scholars.

"This fairly small book must take its place as the best introductory study of Hegel's Phenomenology available." -- Philosophy

and Phenomenological Research

"Westphal's book is a comprehensive guide to the argument of the entire phenomenology.... will repay close study by serious undergraduate and graduate students of philosophy." -- Choice This detailed interpretation of Hegel's Phenomenology of Spirit seeks to show that the unity of this classic work may be found in the integration of its transcendental and sociological-historical themes.

Hegel's classic Phenomenology of Spirit is considered by many to be the most difficult text in all of philosophical literature. In interpreting the work, scholars have often used the Phenomenology to justify the ideology that has tempered their approach to it, whether existential, ontological, or, particularly, Marxist. Werner Marx deftly

Read Free The Unity Of Hegels Phenomenology Of

avoids this trap of misinterpretation by rendering lucid the objectives that Hegel delineates in the Preface and Introduction and using these to examine the whole of the Phenomenology. Marx considers selected materials from Hegel's text in order both to clarify Hegel's own view of it and to set the stage for an examination of post-Hegelian philosophy. The primary focus of Marx's book is on the account. Hegel gives of the phenomenological journey from natural consciousness to philosophical wisdom (or absolute knowledge, as Hegel calls it). In showing that Hegel's many statements concerning consciousness 'finding itself' or 'knowing itself' in its world can be understood as discovering the rationality of the conditioning world, Marx offers a solution to several sets of interrelated problems that have troubled students of Hegel. His book contains valuable analyses of the relation

Spirit A Systematic Interpretation Studies in Phenomenology And Existential Philosophy.

Hegel's Phenomenology of Spirit, the philosopher's first and perhaps greatest work, is the most important philosophical treatise of the nineteenth century. In this companion volume to his general introduction to Hegel, Tom Rockmore offers a passage-by-passage guide to the Phenomenology for first-time readers of the book and others who are not Hegel specialists. Rockmore demonstrates that Hegel's concepts of spirit, consciousness, and reason can be treated as elements of a single, coherent theory of knowledge, one that remains strikingly relevant for the contemporary discussion. He shows how the various conceptions of cognition

developed in the text culminate in absolute knowing, which Rockmore reads, in opposition to the frequent religious readings of Hegel, in a wholly secular manner. Unlike commentators who isolate Hegel's text from its philosophical origins, Rockmore analyzes the book in the philosophical context from which it emerged, lucidly discussing notoriously difficult passages in relation to the ideas of Aristotle and Descartes, and above all to those of Kant and other German idealists. Hegel's Phenomenology of Spirit, the philosopher's first and perhaps greatest work, is the most important philosophical treatise of the nineteenth century. figure, who has inspired, provoked, fascinated, and irritated people ever since he walked the streets of Copenhagen. At the end of his life, Kierkegaard said that the only model he had for his work was the Greek philosopher Socrates. This work takes this statement as its point of departure. Jon Stewart explores what Kierkegaard meant by this and to show how different aspects of his writing and argumentative strategy can be traced back to Socrates. The main focus is The Concept of Irony, which is a key text at the beginning of Kierkegaard's literary career. Although it was an early work, it nevertheless played a determining role in his later development and writings. Indeed, it can be said that it laid the groundwork for much of what would appear in his later famous books such as Either/Or and Fear and Trembling.

G. W. F. Hegel's first masterpiece, the Phenomenology of Spirit, is one of the great works of philosophy. It remains, however, one of the most challenging and mysterious books ever written. Michael Inwood presents this central work to the modern reader in an intelligible and accurate new translation. This translation attempts to convey, as accurately as possible, the subtle nuances of the original German text. Inwood also provides a detailed commentary that explains what

Read Free The Unity Of Hegels Phenomenology Of Spirit A Systematic Interpretation Studies In Phenomenology And Existential Philosophy

Hegel is saying at each stage of his argument and also discusses the philosophical issues it raises. This volume will therefore prove invaluable to those who want to get to grips with Hegel's thought processes and to follow his complex argument.

An English translation of Martin Heidegger, Hegles Phanomenologie des Geistes-Volume 32 of the Gesamtausgabe (Complete Edition)-which constitutes the lecture course given by Heidegger at the University of Freiburg. This text occupies an important place among Heidegger's writings on Hegel. There are several crucial discussions of Hegel as well as brief analyses of Hegel spread throughout Heidegger writings.
