About Understanding the Times A compelling look at current events, Bible Prophecy and apologetics with interviews of well-known authors and prominent leaders from around the world.

Your view of God determines your view of the world. You hold in your hands a landmark guide to understanding the ideas and forces shaping our times. Understanding the Times offers a fascinating, comprehensive look at the how the tenets of the Christian worldview compares with the five major competing worldviews of our day: Islam, Secular Humanism, Marxism, New Age, and Postmodernism. Understanding the Times is a systematic way to understand the ideas that rule our world. While the material is expansive, the engaging, easy-to-understand writing style invites you to discover the truths of God and our world. This classic should be on the shelf of every Christian home, on the desk of every pastor, and in the hands of every Christian student headed off to college.

Does the Bible have authority in a world committed to relative truth? The understanding of absolute, objective truth has been largely lost. Spend just a few minutes discussing politics or religion and you'll hear responses like, "There is no truth!" or "That may be true for you, but not for me." Understanding the Faith dares to wade into the middle of the controversy with chapters such as: Is God Christian? Isn't Claiming Truth Intolerant? Is the Bible Anti-Science? Summit Ministries' half century of teaching, this first volume of the Understanding the

Times Series is your definitive resource for deepening and defending your faith. It's a required resource for every Christian's bookshelf.

Addressing issues such as gender identity, abortion, technology, and poverty, Dr. Myers challenges readers to ask: How can an authentic Christian worldview provide a compassionate, effective witness in culture today? Dr. Myers first shows readers what they can learn from Christian history—and why today's issues might not be as new as they seem. Then he takes them through the significant topics that affect them every day, offering biblical ideas for conversing with others in an increasingly hostile culture. This capstone book to a groundbreaking worldview trilogy equips readers to apply a bold Christian witness to their relationships with loved ones, neighbors, and colleagues.

Effective science teaching requires creativity, imagination, and innovation. In light of concerns about American science literacy, scientists and educators have struggled to teach this discipline more effectively. *Science Teaching Reconsidered* provides undergraduate science educators with a path to understanding students, accommodating their individual differences, and helping them grasp the methods--and the wonder--of science. What impact does teaching style have? How do I plan a course curriculum? How do I make lectures, classes, and laboratories more effective? How can I tell what students are thinking? Why don't they understand? This handbook provides productive approaches to these and other questions. Written by scientists who are also educators, the handbook offers suggestions for having a greater impact in the classroom and provides resources for further research.

Presents a multifaceted model of understanding, which is

based on the premise that people can demonstrate understanding in a variety of ways.

My Guide Inside(tm) intermediate curriculum is a series of story-based lessons carefully crafted to teach learners about their natural inner wisdom, or their "guide inside." Based on Three Principles that are foundational to all human experience-Mind, Consciousness, and Thought-as discovered by Sydney Banks, this remarkable resource offers a hopeful, simple way for children, youth, and adults to gain new understanding about how they operate from the inside out. Designed to maximize personal well-being and improve school climate, behavior and learner performance, chapters such as "Discovering My Guide Inside," "Riding the Wave," and "Wheels of Learning Keep on Turning" provide vocabulary building, reflective journaling, and a variety of engaging writing and artistic activities to help draw out children's awareness of their own inner wisdom. In crafting this guide intended for Grades 4-7 but adaptable for all ages, authors Christa Campsall and Jane Tucker pull from their years as educators to design a curriculum, inclusive of all learners, meeting official learning objectives and student competency standards. Children naturally experience their wisdom and show resilience when given a hint about how life works. This program promotes that discovery process and encourages happiness and success in their young lives. [www.ed-talks.com](http://www.ed-talks.com) for more information. Teen Edition and Primary Edition are forthcoming!
