The term 'universal jurisdiction' refers to the state's ability to undertake criminal proceedings against a foreign national, for any alleged crime committed outside the country.

---

Universal Jurisdiction in International Law  
Universal jurisdiction in its modern incarnation has not developed out of the need to protect and preserve state structures and interests but, rather, is a novel (and still controversial) means to penetrate and disrupt the machinery of the state where state officials act contrary to certain fundamental norms.

Factsheet: Universal Jurisdiction.

December 7, 2015. The principle of universal jurisdiction allows the national authorities of any state to investigate and prosecute people for serious international crimes even if they were committed in another country. For example, this means that the German government could, if it chose to do so, prosecute U.S. officials for crimes committed in Iraq and Afghanistan.

Universal jurisdiction in modern international law

Universal jurisdiction was applicable only to the crimes committed in terra nullius, where the jurisdiction of any other country was invalid. It has been argued that terra nullius is a requirement of universal jurisdiction, and that when sovereign power has been voluntarily ceded by treaty to grant universal jurisdiction that “in effect, the state becomes analogous to
