history of Britain, to British subcultural studies, and to a continuing fascination with Mod style and culture. The interdisciplinary chapters collected here set the album and film amongst critical contexts including gender and sexuality studies, class analysis, and the film and album 's urban geographies, seeing

Quadrophenia as a transatlantic phenomenon and as a perennial adolescent story. Contributors view Quadrophenia through a variety of lenses, including the Who ' s history and reception, the 1970s English political and social landscape, the adolescent novel of development (the bildungsroman), the

perception of the film through the eyes of Mods and Mod revivalists, 1970s socialist politics, punk, glam, sharp suits, scooters and the Brighton train, arguing for the continuing richness of *Quadrophenia*'s depiction of the adolescent dilemma. The volume includes new interviews with Franc Roddam, director of *Quadrophenia*, and
